REALIZING YOUR **CHARITABLE GOALS WITH NON-CASH ASSETS**
AT THE CHICAGO COMMUNITY TRUST

UNLOCK THE BENEFITS OF GIVING STOCK AND OTHER ASSETS

Making gifts of assets rather than income is a tax-efficient way for donors to meet charitable goals.

People have become more creative in the ways they support the causes that matter to them, as well as the methods they use to fund their philanthropic goals. Cash is not king — in recent years, nearly two-thirds of all contributions to donor advised funds nationwide were made with non-cash assets.*

Advisors often recommend that donors consider making gifts of publicly traded securities, real estate, closely held business interests, or art and collectibles as a means of realizing their charitable objectives.

For donors, the benefits take many forms and can include:

- Generous tax advantages
- Freeing up customarily donated cash for other purposes
- Providing income or diversification
- Building or expanding upon charitable goals
