Partnership in Action: McDonald’s

**We do it all with you.**

In 2022, the McDonald’s Corporation and The Chicago Community Trust partnered to support McDonald’s community investment strategy to provide Chicago youth from ages 16 to 24 with workforce development, crisis prevention, mental health, and mentoring programs.

With expert knowledge of community organizations in Chicago, the Trust helped McDonald’s select nonprofits to receive an initial round of grant funding. The Trust oversaw grant processing, helped forge deep grant-partner relationships, and designed a method to measure results.

At the end of the year-long program, the Trust offered detailed recommendations to McDonald’s on how to strengthen its future efforts to provide more opportunity and support to youth in Chicago, building on the strong community relationships it had formed.

The Trust’s expertise in grant making and impact evaluation deepened the impact of funding dollars while enabling McDonald’s to focus on building strong relationships with its grant recipients, including direct involvement from its corporate volunteers.
